### **DETAILED ACTION**

Claims 1-6 are pending in the application.

Claims 4-6 were withdrawn from consideration on the merits in the previous Office Action as they are directed toward a non-elected invention.

Claims 1-3 were examined on the merits.

The previous rejections were removed due to the most recent amendments to the claims.

Applicant's arguments solely to the previous rejections are moot in light of the new rejection which follows.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Bain (1999).

Art Unit: 1655

According to Bain, reporting for the Toronto Star, *Morinda citrifolia*, also known as 'noni' juice, was sold as a reconstituted puree juice mixed with blueberry and grape juice (see page 2). This beverage was consumed by many people, as evidenced by the reference (see page 2 for example) as well as by the \$40,000 in sales in one month (see page 1).

Consumption of the product would have inherently produced inhibition of PDE because the claims are directed toward simple ingestion of the material which was already known in the art. Thus, the act of ingesting even a minute amount noni juice concentrate would have inherently manifested inhibition of PDE enzyme, especially since PDE enzyme is an endogenous enzyme to humans and especially lacking evidence to the contrary.

No claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1655

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
